**- Compact for Responsible Scholarship: A Joint Resolution for Academic Excellence -**  
**endorsed by**  
**The UGA Student Government Association and The UGA Teaching Academy**

Our University was founded with the motto, “to teach, to serve, and to inquire into the nature of things,” and a mission that includes “a commitment to excellence in the teaching/learning environment dedicated to serve a diverse and well-prepared student body, to promote high levels of student achievement and to provide appropriate academic support services.” Students and faculty at the University of Georgia today strive to achieve this level of excellence and have collaborated on defining both a set of values and of expectations for one another to ensure that this level of excellence in education is maintained through a concentrated effort to perform at the highest levels in the classroom on the part of both parties. These are guidelines, prepared collaboratively by faculty and students, that we hope will be taken to heart by all of those on the UGA campus and discussed and defined further in each classroom. If these basics are taken as a starting point, with the intent of surpassing them, then we can continue to excel in academia at the University of Georgia.
